

What do I want to learn or understand?

Last sprint I worked with filters which means, my focus was on typescript and react. This sprint we made the website more responsive and user friendly. To do this I needed to learn how CSS displays work to place components in their logical “right” place.

How can I help someone else, or the entire team, to learn something new?

I pair coded this week with a member of the team, and it was a good opportunity to help with some topics but learn as well.

What is my contribution towards the team's use of scrum?

I was active in the meetings as well as writing the team reflections. I was part of the meeting with the supervisor on the campus and tried to make the experience of completing our project better by using agile methodics.

What is my contribution towards the teams' deliveries?

I completed my tasks this sprint, I worked on the recipe page front-end and made it better looking and easier to use.
